

Come Join the Boston Area MG Club for **DYNO DAY 2010**

Come join with the BAMG members as we take over New England Dyno in Douglas, MA on Saturday, May 15. Bring your car and test it on the 1200HP-200MPH Dynojet 248E Dynamometer, the same test bed that is used in the Winston Cup NASCAR Series.

This is a great opportunity to get some valuable insight on how well your car is running, what its performance baseline is and what you need to make it run better. Owner, John Sansoucey, will be on hand to guide you through the process and offer his professional advise.

Cost for the day is \$65-\$75, depending on the number of cars participating and includes a BBQ lunch of hamburgers and hotdogs, 4-5 pulls per car and a performance printout of your runs. There is a \$5.00 registration fee to reserve your slot. Only 10-12 slots are available and are assigned on a first-come-first served basis, so register early!
